ITALIAN STAGE

The new budget brand for sound systems products, has been created out of the vast experience that Proel has in this field.

The use of the most advanced Research and Development processes, normally reserved for much higher end products, efficient and strictly controlled quality assurance, as well

as a proven track record in ODM projects are just some of the elements characterizing the "budget/quality" mission of Italian Stage. A business opportunity to capture a market position with highly competitive, inherently reliable products without direct competitive comparison but at a similar price range.

MIXERS

The new Italian Stage 2MIX is small format mixers' series offering everything the musician or the simple enthusiast need, as well as a clear and powerful sound thanks to the use of low noise preamps. Equipped with a complete feature set, the 2MIX
